

# Who is AFC Aerospace & Defense?

AFC Aerospace & Defense provides specialized supply chain solutions, inventory management programs, and distribution of mission-critical fastening and assembly components to aerospace, defense, and marine customers.

The division serves OEM manufacturers, MRO providers, government agencies, and defense contractors that require consistent access to fully traceable, certified components delivered with precision and reliability.

Built through the integration of highly specialized companies, the group combines deep technical expertise with AFC Industries' broader supply chain infrastructure to support some of the most demanding industries in the world.

At its core, AFC Aerospace & Defense focuses on ensuring that critical parts are available exactly when needed—supporting aircraft production, maintenance operations, naval shipbuilding, and defense systems where delays or quality issues are simply not acceptable.

**Our Focus:**

- **Distribution of aerospace and defense-grade fasteners and assembly components**
- **Fully traceable materials sourced from qualified manufacturers**
- **Compliance with industry standards and certifications**
- **Vendor managed inventory and on-site supply programs**
- **Custom kitting and value-added services**
- **Technical support to improve production efficiency and reduce operational risk**

**Our Quality Certifications**

# Our Product Categories

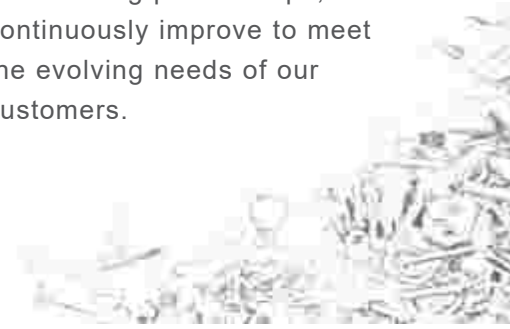

We carry the following products: Hi-Loks, Nuts, Bolts, Screws, Bushings, Clamps, Fittings, Rivets, Washers, O-Rings, Grommets, Hoses, Retaining Rings, Studs, Springs, Spacers, Quick Release Pins, Lanyards, Inserts and Insert Tabs, Hinges, Standoffs, Couplings, Gang Channels, Milsons, Retainers and more.

# OUR MANAGEMENT PHILOSOPHY

AFC Industries' SIMPLE management philosophy is a framework designed to drive operational excellence and foster a customer-focused culture. SIMPLE stands for Streamline, Improve, Measure, Planning, Learning and Execute, representing the core values that guide

our decisions and actions. This approach emphasizes providing exceptional service, maintaining transparency and trust, leveraging metrics to drive performance, investing in our people, demonstrating strong leadership, and striving for excellence in everything we do. By following the SIMPLE

philosophy, AFC ensures we deliver innovative solutions, build lasting partnerships, and continuously improve to meet the evolving needs of our customers.

|          |  |
|----------|--|
| <b>S</b> | <b>Streamline</b><br>We value simplicity, with efficient and effective practices.                            |
| <b>I</b> | <b>Improve</b><br>We value better processes both internally and with our customer partners.                  |
| <b>M</b> | <b>Measure</b><br>We gather data to define and set your goal. You can't improve what you cannot see.         |
| <b>P</b> | <b>Planning</b><br>Every solid execution begins with a good strategy and the tactical plan to execute on it. |
| <b>L</b> | <b>Learning</b><br>We are always open to improvement and eagerly approach new challenges.                    |
| <b>E</b> | <b>Execute</b><br>We do what we say we're going to do, on time and correctly the first time.                 |

**“Everything we do supports our primary goal: to make our customers' lives simpler.”**

Kevin Godin, CEO

**SIMPLE Solutions. Powerful Results.**

# AIR

## Mission-ready support for aviation programs

Flight-critical applications leave no room for compromise. We supply certified fasteners and aerospace-grade hardware that meet strict military and aerospace requirements for performance, quality, and compliance.

- Military-standard and aerospace-grade fasteners
- Complete documentation and full lot traceability
- Aerospace-quality inspection and certification
- Strategically positioned inventory for reliable, on-time delivery

### Supporting:

- Military aircraft and rotorcraft platforms
- OEM and MRO aviation programs
- Defense avionics and structural assemblies
- Flight-critical systems and components

# LAND

## Mission-ready Support for ground-based defense systems

Operating in rugged, high-impact environments demands hardware that performs without hesitation. We support land-based military programs with certified fasteners, hardware, and custom kits built for reliability in the field.

- Certified fasteners and hardware for rugged land platforms
- Nationwide inventory network for fast, reliable availability
- Full traceability and accurate documentation
- Strict quality controls for mission-critical use

### Supporting:

- Armored vehicles and tactical ground transports
- Missile systems and mobile launch platforms
- Unmanned ground vehicles and robotic systems
- Ground support equipment, maintenance, and overhaul programs

# SEA

## Mission-ready support for naval and maritime defense

Naval platforms face some of the most demanding operating conditions in the world. We deliver certified hardware, disciplined quality systems, and documentation designed to perform in harsh marine and shipboard environments.

- Certified hardware for corrosive and high-demand conditions
- Shipyard-focused inventory located near major ports
- DFARS-compliant delivery for mission-critical schedules
- Full traceability and inspection support

### Supporting:

- Surface vessels and naval fleets
- Aircraft carriers and maritime platforms
- Shipyard maintenance and overhaul programs
- Maritime support and defense systems
- Full certification packets and dimensional reports
- Hardware certified to federal, MIL-SPEC, AMS, and NASM requirements
